On behalf of my Government, I strongly protest the continuing violations by Turkey of international air traffic regulations and the national airspace of the Republic of Cyprus and call for their immediate cessation.

This relentless abuse by Turkey of the sovereignty and territorial integrity of the Republic of Cyprus clearly violates international law and air traffic regulations

and puts the safety of international aviation in the Eastern Mediterranean at serious risk. I call upon the Turkish Government to abide by the Charter of the United Nations and its international obligations and respect the sovereignty, independence and territorial integrity of the Republic of Cyprus.

Regrettably, while negotiations aimed at finding a just, lasting and peaceful solution to the Cyprus problem are ongoing, Turkey's provocative behaviour continues unabated. Turkish Prime Minister Erdoğan's latest remarks, while on an illegal visit to the occupied areas of Cyprus, leave no room for doubt as to Turkey's real intentions and are particularly disheartening at the current juncture in the negotiations. We call on Turkey, once again, to heed the call of the international community and engage constructively towards reaching a viable solution to the Cyprus problem, in accordance with the agreed basis for such a solution, endorsed by numerous Security Council resolutions.

I should be grateful if you would have the present letter circulated as a document of the General Assembly, under agenda item 43, and of the Security Council.
